

PADDLE WHEEL AREATOR

Arudhra Technologies offers high-quality aerators designed for efficient aeration and mixing in various water bodies, including ponds, lakes, and aquaculture operations. **Key Benefits** Increases oxygen levels and reduces pollutants Supports healthy aquatic ecosystems Durable and low-maintenance design Customizable options for specific needs

Used in :

- Ponds
- lakes
- Aqua culture ponds
- Prawn farms
- fish farms
- fresh water farms

Accessories Aerator :

- 2 wheel
- 4 wheel
- 6 wheel
- Gear box
- Floater
- Motor - 2hp, 4 hp,
- Connecting Rods
- Hoods

KEY FEATURES :

- Boost Water Quality and Aquatic Life
- Increases oxygen levels and reduces pollutants
- Supports healthy aquatic ecosystems
- Efficient and cost-effective solution
- Customizable options for specific needs

USED :

- High intensity farming
- to increase the oxygen level in aquatic echo systems
